

International Cargo Terminals, Inc.

ICT ELIZABETH (NYC) CUSTOMER ADVISORY

July 19th, 2024

Dear ICT Customers,

The Crowdsourc Global IT outage has caused major disruptions to the Port of NY/NJ operations. The terminals are processing trucks inbound and outbound again, but the conditions in and around the port is significantly congested. Access to the port from all entry points is heavily backed up with trucks lining up as far as the New Jersey Turnpike overpass.

International Cargo Terminals are working diligently with our dray companies, but it is likely, customers with containers in a 'last free day' status may not be picked up today.

Yours Sincerely

International Cargo Terminals Inc.
